📋 Development Plan

Level Design 3D

1. Whitebox spawn area ✅
2. Whitebox hallway area✅
3. Whitebox Item area✅
4. Add assets to the game
    a. Item to steal - McGuffin✅
    b. Flooring✅
    c. Walls (wait for textures)
    d. Roof (ready to add)
    e. enemy (ready to add + color + animation)
    f. player (color + animation)
5. 90 sec to beat (QA test this after code is done)
6. Shaders (Nelson)
7. Lighting (Nelson)

Team Name✅

1. Add team name ideas to document✅
2. Vote on team names✅
    a. Vote on two favorites unless we agree on one✅

itch.io post

1. Vote on poll for team itch or individual itch✅
    a. Team : Make an itch account with team name✅
    b. Individual : Vote for a team member✅

    Need the build of the game

    Need the description of the game

    Need the art

NavMesh✅

1. Research what this is✅

Audio

1. Footsteps
2. Grab noise
3. Main menu button click
4. Background music
5. Main menu background music

Camera

1. 1920 × 1080✅

2. First person POV✅

Guard

1. Spawns after the game starts in the hallway area
2. Nav Mesh✅
3. Detects the player✅
4. Reacts to the players actions✅
5. Cannot be deactivated✅

UI Design

1. HUD

Menu

1. Main menu (wait for art)
2. Pause Menu
3. Game Over Screen
4. Win Screen

Animations

1. Enemy walk animation
2. Enemy idle
3. Enemy hacked
4. Enemy spots player
5. Enemy run
6. Player walk
7. Player grab item

8. Player hack

Art

1. 15 Models max
2. McGuffin model✅
3. Enemy model✅
4. 1 Scene object (place into the game)
5. Itch banner image
6. Itch cover image
7. Main menu background✅
8. Win background
9. Lose background
10. Itch side banner image

Programming

1. No crashing✅
2. Unity✅
3. C#✅
4. Nav Mesh✅
5. Keyboard✅
6. Mouse✅
7. Controller (implement the scripts)

Concept Document

1. Game Title
2. Fill in game info

3. Banner image
    a. Will be used for itch
4. Cover image
    a. Will be used for itch

Programmer scripts

1. Player movement✅
2. Enemy movement / actions✅
    a. Must change when player movement change✅
    b. Must change when McGuffin is grabbed✅
3. Main menu functionality✅
4. Lose menu functionality✅
5. Win menu functionality
6. McGuffin✅
7. Pause Menu

GitHub✅

1. Get everyone's GitHub names✅

File Setup

1. Read Me file
2. Two folders with each prototype
3. One zip file
