Game Name To Be Determined

2-19-26 3:51pm

By signing this page, each member agrees to ownership of all relevant responsibilities for the role(s) listed and that all team processes and expectations constitute the minimum interaction level for maintaining an active status on the team. This contract's effectiveness extends from the creation of the team on 2-19-26 through the presentation of The Project on 3-3-26 .

First Name	Last Name	Role	Date
Lays	Perez	Producer/Programmer	2-19-26
Jeremy	Cruz	Level/UI Designer	2-19-26
Yadriel	Vento	Level/Audio Designer/Documents	2-19-26
Nelson	Garcia Figueroa	Level Designer/QA Tester	2-19-26
Paige	Hemlak	Concept Artist/3D Artist	2-19-26
Connor	Hewitt	Programmer/Audio Designer	2-19-26
Lindsay	Chong	3D Artist/Animator	2-19-26

Team Goals

Here are the team's stated goals for the project. Each team member assumes the responsibility of making decisions that move the project towards, and not away from, these goals.

- Achieve a grade of 90% or higher on all team assignments
- Consistently produce work to the highest level at which each team member is capable of with the time they stated they have in the Member Profile

Communication Requirements

Failing to reactively and proactively communicate in these ways constitutes a breach of this contract.

- Check in to the team's Discord at least once a day during the week
- Resolve all direct and group communications within 24 hours (@ mention in discord)
- If there are questions about the specifications over assigned tasks, communicate these concerns with the Producer at least 12 hours after the task is announced in the daily task discord announcement.
- If you can't make a deadline communicate this 12 hours after it is assigned

Participation

Presence at team functions and in contribution to the development of the project is expected unless previously arranged with the team. The participation in team meetings and activities is essential for a creative collaborative environment to succeed. To that end, all team members are responsible for the following levels of participation.

- Attend full team meetings, unless previously approved in writing to be excused
- Contribute no less than the hours agreed on in your member profile. With the minimum being 30min a day if you didn't specify your time.
- Redo work when needed if it doesn't align with the project.

Roles

Producer

- Outline any expectations required by members
- Posts tasks daily
- Other tasks may be added!

Artist

- Concept art of the enemy, item, environment item
- 3D Models of enemy, item, environment item
- Other tasks may be added!

Designer

- Level whitebox
- Audio
- Menus
- UI
- HUD
- Other tasks may be added!

Programmer

- Player movement
- Enemy movement
- Enemy interactions
- Player interactions
- First person camera
- Item functionality
- Other tasks may be added!

Accountability

Failure to comply with any or all of these expectations or those set out in the syllabus results in a move to corrective action within the team.

1. Any breach warrants:
    a. a live talk with producer that details the observed infraction. We will talk about what can be done to help you improve.
    b. If you don't work on a solution with the producer your teammate score will be reduced.
    c. If you don't improve by the next task the teacher will be contacted.
2. These will all be documented on Notion

    Contract Breaches

3. The Professor reserves the right to fire any member for infractions of the syllabus, stated course expectations, or general misconduct.

Removal from a Team ("Firing" Policy) as Per the Syllabus

If a student fails to meet the expectations outlined in both the Team Contract and the instructor's baseline participation and professionalism standards, they may be removed ("fired") from their team.

Removal from a team may occur when a student demonstrates one or more of the following behaviors:

- Ongoing lack of participation or contribution
- Failure to communicate or respond to teammates
- Missed deadlines that negatively impact team progress
- Behavior that disrupts the team's ability to function professionally
- Submitting work as their own that was not created by them, misrepresenting their contribution, or claiming ownership of work completed by others
- Actions that intentionally or negligently undermine the team's progress, including sabotage, deletion of shared work, obstruction of workflows, or behavior that places the project at risk

Team removal is not automatic and will only occur after documentation, attempted resolution, and instructor review.

First Removal from a Team

A student who is fired from a team for the first time will incur the following consequences:

- An immediate 20% reduction to their final course grade
- The student must either:
  - Secure placement on another team (with instructor approval), or
  - Be assigned to a new team by the instructor

The student is expected to meet all expectations of the new team and project moving forward.

Second Removal from a Team

A student who is fired from a team a second time will fail the course.

This course is designed around collaborative production workflows and cannot be completed individually. Repeated removal from teams indicates an inability to meet the core requirements of the course.

Important Notes

- Being fired from a team does not exempt a student from course responsibilities or deadlines.
- Teams are not obligated to accept a student who has been removed from a previous team.
- All decisions regarding team removal and reassignment are made at the instructor’s discretion.
